The Secretary of the Treasury will not take any steps to relieve the financial stringency in Wall street at present. It is not thought by Washington officials that the present conditions affect the general prosperity of the country. The officials believe that Wall street financiers are able to cope with the situation without the Government adding to its deposits in New York banks.

The high esteem and love of the members of the Presbyterian church for their pastor, Rev. S. M. Logan, was shown by their efforts to retain him. So strong a pressure was brought to bear he agreed to remain here if the church at Wilmore would agree. Dr. Curd and W. P. Ariz went there last week to get them to cancel the call, but did not succeed, as they had heard of his excellent ability and zealous work, and he will leave the first of the year for his new field of labor.—Middletown News.

J. L. Bradshaw, a widower of 63, and Mrs. Mary Rubarts, a widow of 31, were married last week. Mr. Bradshaw is one of Mt. SOMERSET.

Before this is in print our little city will be aglow with electrical effulgence.

We have a first class laundry here. Mr. Oliver, the operator, a Polakian, uses native help and gives perfect satisfaction.

The different churches are giving a series of informal receptions that are very pleasant and entertaining; cultivating the social qualities of their members.

Hello Crab Orchard! We are always glad to hear from you. We may extend a trolley line down to you soon as it seems impossible to reach you by telephone.

Mr. and Mrs. Livingston Andrews have taken their infant to Junction City to be with relatives during its serious illness. They have the sympathy of friends in their affliction.

The brick work of the new college building is about completed and the mechanics are putting forth extra exertion to get the structure under slated roof. The stone work is very elegant, being dressed and shipped here from Indiana.

We failed to get in our items last week as our time was occupied with moving out of our trunks and boxes into more commodious quarters. We are now pleasantly domiciled third door south of the new college building. Call and see us.

Our various stores are so over-crowded with Christmas novelties that one can scarcely elbow his way through the very wilderness of beauty from counter to counter. The cheap counters of many of them are things of wonder in variety and novelty.

We are having some gloomy weather now, but we must not forget that behind the clouds the sun shines, and in due time, if we are but patient, his beams will dispel the darkness, and if we have bright pictures in our hearts, even dark days will be lovely.

The South End is to have a fine new school building near the Higgins' addition East of the Q & C, and we are to have a new three-story brick hotel on North Court Square, which will surpass anything in that line in convenience, elegance and equipment.

Three cheers for Miss Cattie Horton. The writer knew she was an expert in shorthand and is glad she has achieved laurels in typewriting, and if she still desires to go higher on the ladder of fame she can come to Somerset where there is an abundance of room at the top.

Our post-office will have to be enlarged, as a box cannot be had for love or money, hundreds of our citizens receiving their mail at the cell window. We are really in emory of what we hope soon to become, for with our efficient city administration, a plea for the betterment of the city is hardly conceived before it begins to materialize. We do not like to speak our own praises so loudly to Stanford, but as the INTERIOR JOURNAL says Somerset is among the best people in the world, we will be excused for a little self laudation, and if there should be any doubt of these and former statements, all we have to say is come and see and you will be convinced and be compelled to exclaim with the Queen of Sheba, MRS. STAMP.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by Craig & Hoeker, Stanford.

The late Tom Reed's definition of a statesman as being "a successful politician who is dead," has been quoted perhaps as much as any of his sayings. Equally as true was his characterization of the Senate as a "place where good Congressmen go when they die."—Washington Star.

The splicing of the new Pacific cable was completed Sunday at San Francisco, and the shore end of the cable was christened by Miss Lucille Gage, daughter of Gov. Gage, of California. The ceremony was witnessed by a crowd of thirty or forty thousand people.

A Liberal Offer.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. Craig & Hoeker.

The Lancaster Prohibition Alliance, No. 21, will be held at Odd Fellows' Hall on Friday evening, Dec. 19, and a good attendance is earnestly solicited.

The teams of James Collett and Mr. Speake collided on Lexington street Saturday night and the former suffered a demolished vehicle and a flattened nose.

Dr. Wright, who left Garrard as a 10 year-old lad 40 years ago, has just been here seeking traces of his old Kentucky home in the Fall Lick vicinity. He is now a resident of Iowa.

The fact that former Gov. W. O. Bradley visited Harrodsburg and in connection with some of the leading citizens of Burgin, examined the court records of Mercer county in regard to the Southern Railway contract, indicates a still unsettled state of things along this line and causes some Lancasterians to still entertain hopes of better railroad facilities in the near future.

Mrs. Towles Walker is visiting her parents at Lebanon. Mr. Homer Tinsley is at home again after a two years' sojourn to New Mexico. Mrs. Baughman is visiting her daughters in Paris. Miss Mattie Eklis has returned from a visit to Danville. Miss Florence Harris is at home from a visit to Carlisle and Mayeville. W. R. Cook and family leave shortly for Hendersonville, N. C. THE Kentucky court of appeals having reversed the decision declaring Caleb Powers guilty of complicity in the murder of William Goebel and ordered a new trial, the country will have to prepare for a new infliction of the nuisance on the public. It is some consolation, however, to know that Judge Cantrell will be left out of the next trial.—Philadelphia Press. To this the Cincinnati Enquirer fittingly responds: Nuisance, is it? Should the machinations of justice in Kentucky be blocked simply because it is annoying to some of the politicians and party hacks of the country? There was a cold-blooded, calculating murder at Frankfort. Somebody committed a crime which our civilization regards as demanding the death penalty. Goebel was killed by a murderer who laid in wait for him and shot him from ambush. There was never a clearer case of capital offense and Kentucky can not afford to rest while there is a chance of getting at the whole truth and bringing all the conspirators to justice. It is a shame that there should be any citizen, not actually charged with participation in the crime, himself, who would like to have the subject dropped.

O. P. AUSTIN, chief of the Bureau of statistics of the treasury department, shows in a surprising statement of figures that the commerce between the nations of the world had grown from \$1,500,000,000 in 1800 to \$20,000,000,000 in 1900, or about \$2 for each individual in the world in 1800 to \$13 for each individual in 1900, and that the foreign commerce of the United States had made even more rapid gains, our exports of domestic merchandise having grown from \$32,000,000 in 1800 to \$1,400,000,000 in 1900, or 46 times as much at the close of the century as at its beginning.

THE Christian Scientists of Georgia claim that they got a victorious verdict from the supreme court of that State. A citizen of Dublin, a Christian Scientist, refused to give medicine to his sick child. The child died and the father was arrested and fined \$300. The case was appealed to the State supreme court, which reversed the judgment of the lower court, holding that failure to give medicine to children when ill is not a violation of the laws of the State.

THE Advocate's report of the Danville convention is the fairest and best written one we have seen. It tells in a concise way everything that happened and is absolutely clear of bias. Judge Sautley's admirable speech of acceptance is given in full and is most excellent reading. Messrs. Ralston and McIntyre are making the Advocate a splendid paper and we love it the more since they state that it will follow the roster wherever it goes.

ILLINOIS has a law that no matter how valuable to his family or the community a citizen may be, if a corporation takes his life his family can recover only \$5,000 if the corporation is proved guilty of depriving them of their bread winner. The newspapers are making strenuous effort to have the law changed so as to make the jury the judge of the damages, and a bill to that effect will have popular support, if not legislative.

It is quite possible that the contest in the Senate over the House bill to admit Oklahoma, New Mexico and Arizona as States of the union may be compromised. To join Arizona to New Mexico, and the Indian Territory to Oklahoma and to then admit the four territories as two States would minimize the danger of over-representation in the Senate and be a very happy solution of the vexed question.

THE village of Collinwood, O., will be rewarded for voting whiskey out. The Lake Shore railroad will spend \$1,000,000 in new shops additional to extensive buildings already erected there. Had the village voted for the sale of liquor the railroad officials say that this extra sum of money would have been withheld.

A JUDGE in Maine holds that it is not theft for a wife to go through her husband's clothes and abstract therefrom any cash assets that she may find. Of course it is not theft. If it were nine-tenths of all the married women in Kentucky would be in the penitentiary or on the way there.

FIFTEEN regiments are coming home from the Philippines and 15 regiments are to be sent to take their place. The deadly nature of the Philippine climate makes this expensive change a measure of economy.

"JUDGE SAUTLEY didn't say anything about running a primary with Mr. Harding," the Danville News writes. Doesn't the astute editor of the Harding boomer know that Mr. Harding was knocked out on the first round and is therefore dead as far as his getting another whack at the business is concerned? Judge Sautley has too much respect for the dead to talk about Mr. Harding now.

ROBERT HARDING was the only candidate before the Danville convention who was not "nominated." How did he make his escape?—Harrodsburg Democrat. The question is a stunner and we pass it up. However, the fact that Mr. Harding failed to carry his own county solidly might have cut some figure in the matter.

THE death of Mr. Reed leaves only three ex speakers of the House still living—Galusha A. Grow, who was wielding the gavel 40 years ago and is a member of the present House; J. Warren Kiefer, who presided in 1881, and John G. Carlisle, who served from 1883 to 1889, inclusive.

It was a grim joke to organize the toy trust just before Christmas. The new trust must be trying not only to get money but to have fun with the people during the process. From toys to coffins, from the cradle to the grave, the octopus maintains its hold on our lives.

THE actions of Great Britain and Germany in pouncing on little Venezuela is a great exhibition of courage (?) on the part of the big powers. And yet our republican administration is ap proving the cowardly action.

IN commenting on the president's message, Mr. Bryan says: It must be admitted that the president came quite as near hitting the trusts as he did shooting a Mississippi bear.

POLITICAL.

Burton Smith, of Atlanta, a brother of Hoke Smith, is in Washington seeking a judicial appointment in the Philippines.

J. B. Fuqua, Sr., of Russellville, has announced for the democratic nomination for superintendent of public instruction.

The Senate fixed upon the lump sum of \$4,000 as payment for the services of the anthracite strike arbitrators who are not in the civil or military service of the Government.

The strenuous man, with mighty strides and use of voice and pen, marched boldly up against the trusts—and then marched back again.—Bryan on the president's message.

Representative Kehoe, of Kentucky, has introduced in Congress a bill to appropriate \$612,000 for the purchase of a site and the establishment of a military post in Kentucky.

Debate on the Statehood bill will be the program in the Senate each afternoon of the week with little probability that the measure will be disposed of before adjournment next Saturday.

Secretary Shaw has submitted to Congress an estimate of \$33,923.75 for a site for a military post at Chickamauga Park. The secretary recommended that the amount be carried by the Urgent Deficiency Bill.

During consideration of the Statehood Bill in the Senate Mr. Quay declared: "If the republicans can lie to the people about the admission of their territories in their platform they can lie about every other provision in the platform."

Representative De Armond introduced in the House a bill providing that all packages of goods shipped from one State to another shall bear the brand "No monopoly; produced in open competition." A fine of \$1,000 is provided for each violation of the provision.

The Philadelphia & Reading Railroad Co. has pressed over 60 locomotives into service to carry coal to Eastern cities.

Morgan and a number of banks formed a \$50,000,000 pool in New York to lend in the money market in the event of actual emergency.

WATERS.—Mrs. Rhoda Waters, widow of Mr. George R. Waters, died Saturday night at her home in Boyle county. A number of children, all grown, survive the good woman. Mrs. Waters was a sister of Miss Carrie Porter, of this place, and a daughter of the late Thornton Porter.

YOUR attention is called to the advertisement of Christian College, Hustonville, which is one of the best educational institutions in this section. Dr. O. B. ED WALTON, proprietor of the INTERIOR JOURNAL, bought the plant of the Lincoln Democrat last summer. He proposes to sell it to a stock company at Liberty and there is some talk of organizing a company and starting a paper.—Saturday's Louisville Times. We have thought something about starting a paper at Liberty, but have arranged no definite plans. The field, we think, is a good one and we have been importuned by the good people of Casey, to give them a paper. The stock company business is new to us. However, if one is formed we will give a bargain in a newspaper plant.

CIGARETTE smokers should read the following and ponder over it: Investigation has shown that 60 per cent of cigarette smoking boys had poor memories, 40 per cent were untruthful, 60 per cent had bad manners and 90 per cent were slow thinkers, while the average efficiency of boys not smoking was 95 per cent.

INCREASED ITS CAPITAL STOCK.—Amended articles of incorporation were filed in the office of the Secretary of State by the Beaver Creek Oil & Gas Company, of Austonville. It increases the amount of its capital stock from \$5,000 to \$25,000. W. G. Welch, J. C. Barker and George D. Weatherford are at the head of the company. The company has under lease some of the best oil territory in Wayne and the object in increasing its capital is to secure means to further develop it. A Wayne county gentleman told us Sunday that he believed the Beaver Creek section was as good as the best oil land in the county.

ANITA'S TRIAL.—The entertainment given at the Gem under the direction of Miss Sara Wood Lynn was a thorough success, and the work of the participants showed the value of a good director. All did well, but we desire to make special mention of Miss Julia Slessinger as "Anita," the wife; Miss Margaret Higgins and Master Camp Catron in their songs; Miss Jeanie Carr as an elocutionist and the little tots in the pickaninny song. The elder ones in the cast of the play were all good and deserve much praise. Misses Joan Reddish and Lillie Litton excellently portrayed the country girl.
